Tuscany[®] Series Vinyl Patio Doors

Tuscany Series Sliding Door

SmartTouch[®] Innovation

Milgard has a long-standing tradition of innovation. The SmartTouch[®] door handle addresses the need for durable, easy to use patio doors that exceed rigorous California forced-entry codes*.

ERGONOMIC

A simple one-touch motion unlocks, opens and closes the door, making it accessible and usable for all ages.

SMARTTOUCH[®] BOLT

A fully integrated steel bolt that secures the sliding patio door firmly into the top frame with the flip of a lever - an industry first! Let the fresh air in while keeping the door secure in a vented position.

SECURITYMAX[™] PACKAGE

Includes a multi-point locking system paired with the SmartTouch[®] Bolt. The lock is activated with a single motion of the handle which engages four locking points and secures the door in the top frame and bottom track. This provides five points of security on your patio door.**

*Based on guidelines set by the American Architectural Manufacturers Association.
**Locks are designed to improve security but are not guaranteed to keep intruders out under all circumstances.
